Subject: AME 3 - Issue with the Palo Alto?

Nick Burns just came into my office, complaining about an issue with our Palo Alto firewalls. He says we need to replace them due to a vulnerability in the device: <https://security.paloaltonetworks.com/CVE-2016-9150>.

I'm really worried about this and need to know if I need to let the other executives know before Nick does. Can you give me your opinion as to how much this impacts us?

Thank you.

IT Director
