Subject: S135 - Threat Category Report

Please create a Threat Category report.using the summary database. Reply with a business memo that documents the top 10 threats as rated by Palo Alto together with the times seen. Provide an analysis on each one as to whether these are events that we should take some action steps on. Are they representative of a reportable information breach; are there protection that we should put in to place that aren't currently in place; do they indicate a shortcoming in our defenses ?

Thank you.

IT Director
