Subject: [T-100] VOIP Service

In order to facilitate our transition to VOIP, an outside contractor has installed a VOIP system at 172.20.242.69. This host will be managed by an external vendor. They will need both SSH and HTTP access to this device. Please verify that access is available on 172.25.x.69.

This service will be scored by the Scoring engine at the completion of this inject.

Thank you.

IT Director
