Subject: IMAC 1 - Squaring things up here

The Board of Directors is worried about our security posture. With the ongoing COVID-19 situation, management needs a threat report to present to the Board. Please provide a high-level summary of major incidents, blocked attacks, and other major security-related controls in place. Gather this data from the PA Threat Log, your own Syslog, and events logs on your servers. Management also needs this report to be extremely up-to-date in case the Board requests it at any time. We will be issuing a periodic inject to recreate this report throughout the competition.

Thank you.
