Subject: PDOM 5 - Suspicious Activity and Inactive Accounts

The CIO has requested a report detailing the top 5 attempted logins and their source. Write a report detailing the these attempts and the risk assessment they represent and how this will be monitored and neutralized in the future.

For each system identify all inactive accounts and write a report explaining the risk and recommend a procedure to identify, notify and disable accounts in the future that management will need to get approved.

Thank you.

IT Director
