Subject: 3.8.9 Perform local backups of critical systems files and system configurations

Backup and capture all of your infrastructure system configuration files and also include backups your critical system files such as for AD, WebApp, Sql, Linux, and Windows Systems.

Submit a written document that lists the critical files and associated backup file names with corresponding location or locations. Include screenshot of files copied or created in the backup location(s) as proof of task completion. Also Utilize NIST 800-171 Protecting Controlled unclassified Information in Nonfederal Systems and Organizations - Section 3.8.9 Protect the confidentiality of backup CUI at storage locations to assist conducting your backup operations.

Thank you.
