

**Team:** Team 3

**Inject Number:** 12

**Inject Duration:** 120 Minutes

**Inject Start Date/Time:** Fri, 23 Mar 2018 18:40:26 -0500

**From:** IT Director

**To:** To Infrastructure Team

**Subject:** [B-102] Internal Vulnerability Scan

Complete an internal vulnerability scan using a product like Nessus or OpenVAS, for example. Develop a memo that documents the open ports, and known vulnerabilities by server together with your remediation plan. This can be presented as a table. Provide screen shots for each server evaluated showing the product functioning.

Thank you.

*IT Director*
