Subject: Request for web access

There is a web proxy limiting access from the competition environment. This is based on the proxy DB from NCCDC plus additional sites approved from team submissions. A concern has been raised that some sites, such as youtube, are dependent on additional access. Use this inject to request access for sites that are blocked, but have legitimate relationship to approved web sites. Notification will be sent via the ISE if a change to the web proxy had been made. Such changes are subject to White Team approval.

David Durkee
CSSIA Competition Director

Thank you.
