

Quest #13: Fireworks Accident

*The sun is setting
on this great day of battle -
time for the fireworks!*

Mr. Pyromania-sama, director of IkiruCorp's glorious Division of Fireworks, Explosives, and Other Dangerous Self-Propelled Incendiary Devices, was fallibly attacked by red *ninjas* and robbed of many of his inventions. Perhaps this is why part of your *daimyo* is on fire...

You have been tasked to create a report for the Division regarding this unfortunate incident. You may report on any suspicious activity in your daimyo that you believe may have been related to the fire.

Create an Incident Response (IR) report containing the following:

- Incident identification (10%)
 - Indicators of compromise
 - Logs and screenshots as appropriate
- Incident causes (25%)
 - Source IP
 - Port/protocol
 - Vulnerable service(s)
 - Exploit(s) used
 - Etc.
- Response(s) taken (10%)
 - System configuration
 - Network infrastructure
 - User accounts
- Lessons learned (5%)

Well-prepared warriors may be able to use the previously-created backups from Quest #4 as a baseline.

Submission instructions:

- Submit as a PDF in #quests-team-##.
- Name the file Team##-Inject13.
