Subject: D209 - Insider Threat

Recent conferences have had a lot of buzz over insider threats and the risks they pose to a business. I am deeply concerned that such an actor could cause harm to our business and impact our profits.

Write a detailed business memo of how your team plans to protect against insider threats and the damages that could be caused if such an incident were to occur. Provide a table that lists out potential incident vectors and monetary damages that could impact our company. Be specific as to where our risks/vulnerability points are: network access, removable media etc...

Thank you.
