

**Team:** Team 3

**Inject Number:** 40

**Inject Duration:** 45 Minutes

**Inject Start Date/Time:** Sat, 24 Mar 2018 13:12:33 -0500

**From:** IT Director

**To:** Security Team

**Subject:** [O-221] Security Login Audit

The IT Director has raised concerns about possible failed login attempts and possible file security settings being changed to some of his major systems.

- 1)The Security team is being asked to create a professional report detailing failed login attempts from all of its major systems. Please list all the failed login attempt accounts.
- 2)An evaluation of these failed logins must be included and address what security concerns they represent.
- 3)Also the report must indicate if any file security permissions have been noticed to be changed and include an explanation of what that security concern could result.

Thank you.

*IT Director*
