Subject: H112 - Organization

Develop an organization chart and business memo for your team, identifying positions (not individuals), such as FW Manager, Linux Manager etc... and their associate required skills set. How is leadership provided within the team, who coordinates inject completion etc... This should reflect your actual team organization

Include assessment as to: if you have sufficient staff or note with requisite skills for these positions. Also provide an assessment of which positions have adequate secondary or backup personnel.

Thank you.
