

Team: Team 3

Inject Number: 45

Inject Duration: 60 Minutes

Inject Start Date/Time: Sat, 24 Mar 2018 14:05:36 -0500

From: FBI

To: CISO

Subject: [F-222] Then it all went sideways

We have been notified by an activist group that they have compromised our network and have placed software that will destroy our systems unless all our C-Exec and Board of Directors publicly post their personal financials and grade transcripts. We don't know if this is real or a hoax. The decision has been made to not capitulate to this blackmail.

We need to immediately launch an effort to find this malware, and also implement our Incident Response Plan. The malware (if real) will trigger when this inject ends.

The FBI has notified your CISO that they received intelligence reports that indicated your network is likely compromised. The exact intelligence is top secret, but they were able to provide the source MD5 hash that could be useful for your investigation.

MD5 Hash: 2ab37ba64af204b5a189646979ac0348

Submit an incident report within the next 1 hour or you will lose points.

Thank you.

FBI
