## Quest #11: Way of the Ninja

Even though silent, ninja must still leave footprints.

Now go and find them!

IkiruCorp only uses the most powerful programs to run our glorious empire. Nevertheless, we must be frugal if we are to rise through competition. We have recently become aware of this new free technology...Procmon? Wireshark? Perhaps a combination of the two?

## <u>Create diagram(s) of any prominent suspicious activity:</u>

- Choose one major indicator of compromise to submit (30%)
  - You may choose more than one event if desired (possible 5% bonus per submission, up to 2x total technical details points)
- Include the relevant packet capture per diagram (10%)
- Include the relevant Procmon log per diagram (10%)

Towards the end of a great battle, it is always useful to analyze one's actions and perform the final stages of IR. These diagram(s) may help with the next quest...

## **Submission instructions:**

- Submit the diagram(s) and supporting materials in #team-##-quests.
- Submit the diagram(s) as a common image file (JPG, PNG, etc.)
- Submit the image file(s), packet capture, and Procmon file all together as a common archive file (ZIP, RAR, TAR, etc.) named Team##-Quest11
