Subject: ORG 2 - Internal Organization

The CIO has asked the IT Director for an organization structure. Do not identify individuals. Identify the roles and positions in your organization along with a description of skills that position requires.
Provide your results in a memo with an organization diagram. Identify what position is the backup for another position, if that role would need additional resources or that person was unavailable.
Lastly, identify the weaknesses, in terms of people, or skills that are in your organization.

Thank you.

CIO
