**Team:** Team 08

**Inject Number:** 30

**Inject Duration:** 70 Minutes

**Inject Start Date/Time:** Sat, 16 Mar 2019 15:20:01 +0000

**From:** IT Director

**To:** Infrastructure Team

**Subject:** H116 - Data Exfiltration Prevention

Using the DLP features in the firewall, develop a Palo Alto policy that
prevents the outbound transmission of files that have the keyword
CONFIDENTIAL in the footer. There are number of confidential documents
on the systems and there will be significant liability for the organization if
these files are breached.
Respond with a business memo that documents the FW configuration
with screen shots that will limit this liability.

Thank you.

*IT Director*
