Team: Team 12

Inject Number: 21

Inject Duration: 90 Minutes

Inject Start Date/Time: Sat, 16 Nov 2019 18:42:23 +0000

From: Internal Audit Dept

To: Infrastructure Group

Subject: 11-Internal Assessment

Using an open-source vulnerability assessment tool, such as OpenVAS, scan your internal network segments to:

1.) Discover what services are enabled on each server/device
2.) What potential vulnerabilities are present on each

Respond with a business-quality memo that summarizes your finding in tabular form. Supply, as an appendix, screen shots of tool working.

Thank you.
