Inquiries to the scoring manager are permitted. Use the inject for Scoring Questions to ask questions about scoring. Response is at the discretion of the scoring manager who will usually offer guidance. Responses from the scoring manager will be by notification on this system.

An inject will be released for teams to request tech support to scrub/revert a VM. Please be specific, and note there will be a penalty for scrubbing a device. Note too it may take time to scrub a device, up to 20 minutes. Teams will need to power up any reverted VM.

A note about NETLAB use that will help performance
-
Don&amp;amp;amp;amp;amp;amp;amp;amp;amp;amp;amp;amp;amp;#039;t leave the NETLAB session on the topology tab; navigate back to the home NETLAB page while working in a VM.
- Close unused VM sessions and otherwise minimize the number of open sessions

In the event technical issues are not addressed in a timely manner or persist, be sure to advise a member of the competition management, or call me directly.
